Passion | our energy and enthusiasm are contagious, we are inspired to make a lasting impact.

Our Values

Our Solution Practices

1. IT Infrastructure Practice

Our key focus under IT Infrastructure Practice is to offer our clients bespoke consultancy, design, implementation and support services for their Enterprise Networks, Collaboration systems, Data Centre Compute, Storage and Virtualization platforms as well as end to end IT infrastructure monitoring and automation.

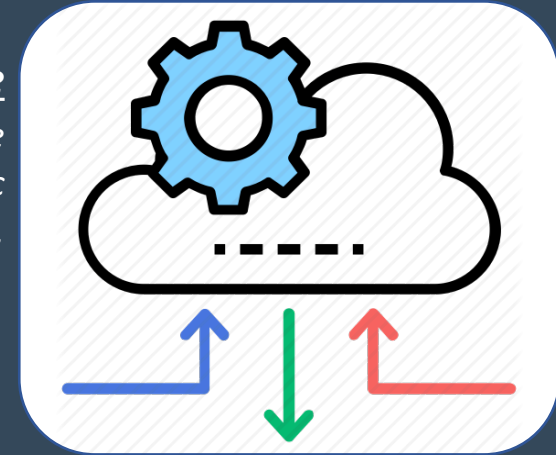

2. Cyber Security Practice

Our key focus under Cyber Security Practice is to provide solutions and services that protect and defend our client's IT infrastructure from cyber attacks and other forms of misuse both from within and without their network perimeters.

3. Cloud Practice

Our key focus under Cloud Practice is to help our customers take full advantage of the value offered by Cloud Computing and to help them securely build or migrate their business logic to a cloud platform offered as public, private or hybrid and delivered as IaaS, PaaS or SaaS.

4. Project Lifecycle Practice

Our key focus under Project Lifecycle Practice is to offer our clients a flexible and highly bespoke project management service based on robust and industry-specific best practice methodologies for project delivery.

Our Services

1. Technical Advisory & Consultancy:

We listen to your needs, take time to understand your business and advise on the right technological solution that will propel you towards achieving your desired business outcomes while at the same time giving you a competitive advantage in the market.

2. Systems Integration & Operational Support:

We walk with you through the journey of solution design, implementation, operationalization and support for a successful deployment and adoption of technology that gives the desired value and business outcome.

3. Project Management:

We offer Project Management as a Service where we provide project managers that have solid project management industry experience to deliver tangible bespoke projects to our clients whilst ensuring project deadlines are met with minimal risk to the project.

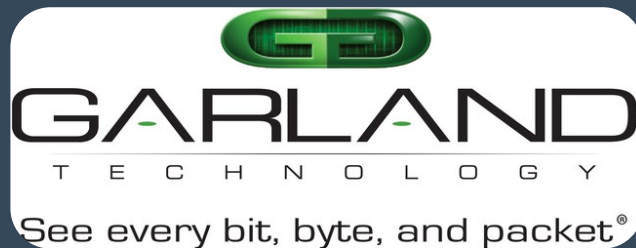

4. Cyber Security Assurance:

We assess your environment, provide recommendations based on cyber security best practices and assist in architecting and implementing a robust and fortified IT infrastructure for your organization that is in compliance with your industry's regulator.
